MATSU

MATSU

Established in 1996, MATSU is dedicated to providing inspiring office furniture overall solutions for clients.

Replying on this craftsmanship spirit as a key to international stage, MATSU entered into strategic cooperation with famous German furniture brand. While introducing excellent European designs into China, MATSU is fully aware of the importance in original design made by itself. So it gradually improves its design ability. MATSU collaborates with many famous design institutes, for the purpose of creating furniture that is featured by original MATSU style.

Inspiring Office Lifestyle

COFFEE SERIES

POSITION

Coffee lifts the spirits and chairs soothe the body. Both are common choices for workers to refuel when they're tired. To this end, borrow the form and meaning of coffee, design a casual seat. We hope that this can make the two complement each other, to better meet the need for relaxation, physical and mental energy.

Coffee bean series, based on the comfort of use, pays attention to the extraction of form. From the function and appearance to give unique user experience, space decorative full. It can be used in various leisure areas to improve the quality and image of the space.

Bionic form modeling design, through the appearance of the form, contains the inner meaning, enhance the meaning and life expression of the product

CNC bent chair frame, precise arc, perfect presentation, surface spraying, beautification and protection treatment

Steel powder spraying countertop, slim appearance, linear wooden bar in the middle divides the coffee table countertop in two, rich texture, simple and beautiful

Beech solid wood bench, beech primary and walnut color are available, and are used according to the color of the space

A variety of height coffee table style options, more in line with the diversified leisure use experience

DETAILS

Two-part backrest form

The back of the seat is split into two separate parts, the form follows the coffee bean form, and the appearance visually conveys the story and interest.

DETAILS

Oil wax skin

Oil wax leather is a kind of cowhide leather making process, which needs to be separated from the ordinary cowhide production process in the water plant process. The main difference is the tanning stage, ordinary cowhide mainly uses chrome tanning, vegetable tanning, aldehyde tanning, etc. Oil wax skin is used oil tanning, after leather tanning and dyeing, the leather is soft, good elasticity, good air permeability, large tension. At the same time, the vacuum drying process in the process makes the oil wax skin also have the characteristics of not easy to mildew.

It has strong water and oil absorption, and the color of the skin surface will become darker when it sticks to the part after water and oil. In fact, it is these characteristics of oil wax skin that make it give people a feeling of nostalgia and vicissitudes. When the leather is stretched, there will be a change in color, and such products are more prone to scratches when scratched by hand, which is also the most special point of oil wax skin.

GROUP

DETAILS

Metal chair frame, linear frame, CNC elbow

CNC bending technology is adopted to ensure that each curve and angle are perfectly presented. The sturdy structure provides a simple and powerful shape.

DETAILS

High-density rebound sponge filling

The sponge has high density, small voids inside, large mass, and super resilience and air permeability. The shape is full and stylish, which strongly supports and relaxes the body muscles, and rebounds the feeling of sitting.

Two-color, dual-material matching

Different materials and colors are used on the front and back sides of the backrest, rich in texture and visual experience, providing a multi-layered experience. The coffee bean and tea table still uses wood texture to divide the powder spraying table into two, which also highlights the form change from the form and color, shapes the memory point of the space, and captures the attention of users.

DETAILS

Solid wood bracket

The simplicity and simplicity of natural materials set the formal tone for the coffee table, with a solid base and a light thin iron countertop suspended on it.

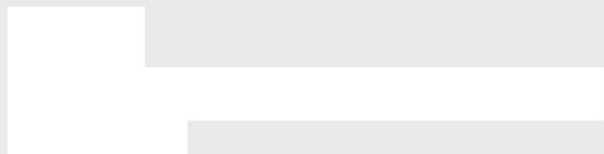

DETAILS

Coffee bean-shaped countertop

The outer edge of the arc, distinguished on both sides of the same form, perfectly achieves fusion from form and structure.

DETAILS

Plastic foot pads

Plastic foot mats are installed at the bottom of the leisure chair legs and table legs, which are non-slip and wear-resistant, and protect the chair frame and floor material from damage.

FAB

Coffee chair		FAB	
F feature	A advantage	B benefits)	
1	Oil wax skin process	the color gets darker and the texture gets richer	Retro style
2	sanded black steel dusted chair frame	protect the substrate and optimize the appearance	stable and durable, rust and color proof
3	rak skin	good elasticity and strength	soft, breathable and comfortable
4	ruiny wrapped	fit the body contact surface	effectively support and relax the body
5	metal chair frame, linear frame, CNC bend	excellent technology, stable structure	simple form, safe and reliable
6	plastic foot pad	Anti-skid wear	protect the chair frame and floor
7	High density springback sponge filling	Full and snaped	strong support and relaxation of body muscles, rebound the feeling of sitting
8	two color scheme	snaping visual change	shape the tonality of space and enhance the corporate image
9	Chair back two flap shape	the form mimics the structure of coffee beans	the product is interesting and story
10	the overall line is smooth, the surface is smooth	Delicate and elegant	improve the quality of space

FAB

Coffee table		FAB			
F	feature	A	advantage	B	benefits)
1	Coffee bean molding countertop	The shape is lovely and vivid		nappy and relaxed	
2	Countertop steel powder spraying	Anti-corrosion and wear-resistant		beautiful and practical	
3	Solid wood bench	The colors are elegant and the texture is delicate		beautiful and natural and durable	
4	Plastic foot pads	Anti-slip and wear-resistant		Protect the chair frame and floor	
5	Steel and wood combination	Contrasting materials, solid structure		beautiful and safe	
6	metallic surface matte finish	matte texture		Low-key, restrained, and a good match for space and product	
7	The bottom is pre-punched and screwed to secure	Detachable design		easy to disassemble and assemble, multiple transportation to minimize damage	
8	Solid wood footings, big and small at the bottom	The top contact area is large		The structure is stable and does not feel bulky	
9	Different table heights and sizes	A variety of single product modules		The product portfolio is diverse, suitable for use and display without space	
10	wooden feet surface paint	Optimize appearance, protect materials		extended service life
