MATSU

MATSU

Established in 1996, MATSU is dedicated to providing inspiring office furniture overall solutions for clients.

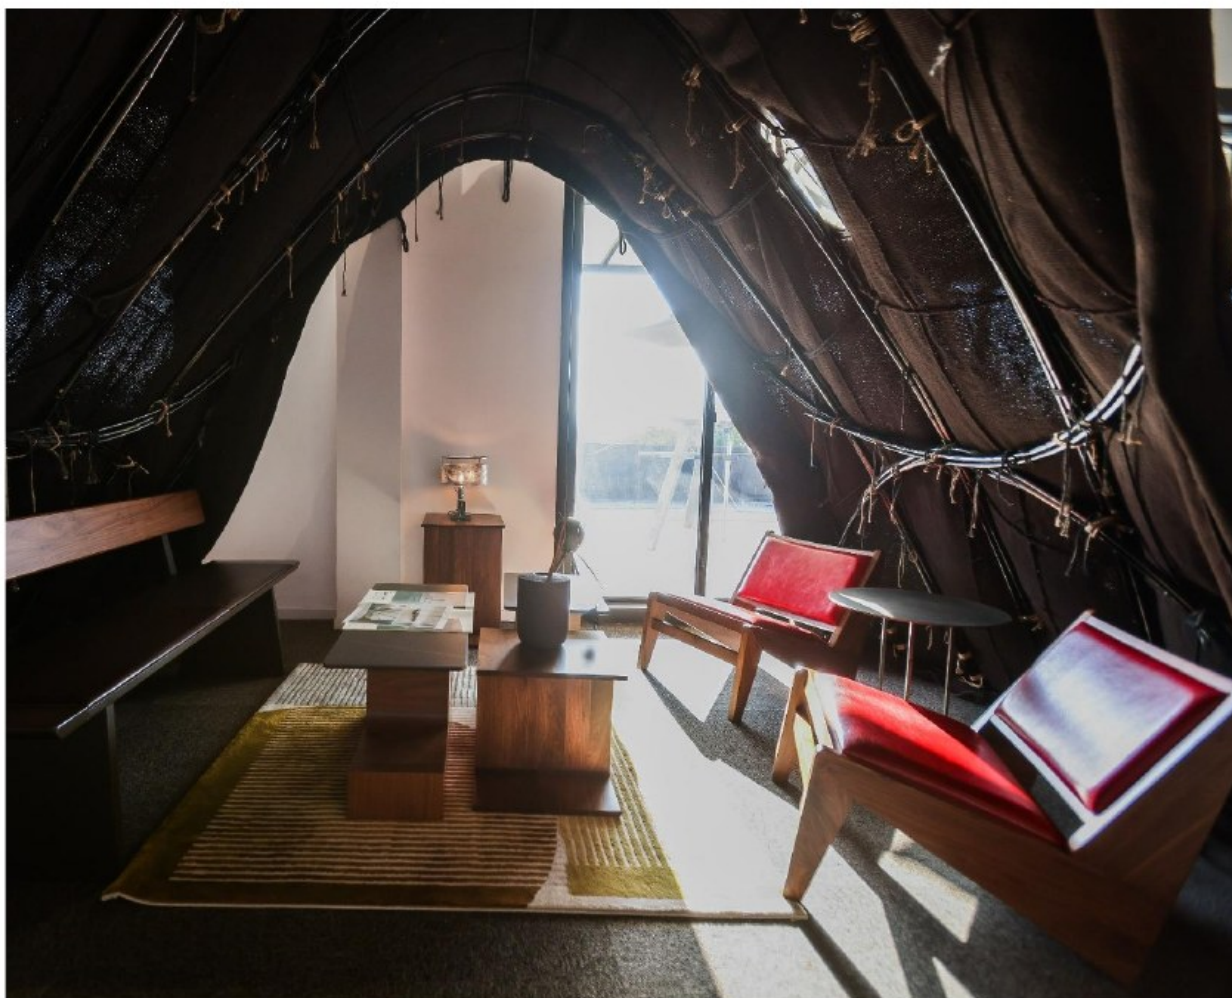

Replying on this craftsmanship spirit as a key to international stage, MATSU entered into strategic cooperation with famous German furniture brand. While introducing excellent European designs into China, MATSU is fully aware of the importance in original design made by itself. So it gradually improves its design ability. MATSU collaborates with many famous design institutes, for the purpose of creating furniture that is featured by original MATSU style.

Inspiring Office Lifestyle

## POSITION

The surface of the Nacang black tent is made of natural yak hair, which is hand-woven by herders. It can be repaired and sewed modularly, reflecting the unique wisdom of the pastoral area. In terms of structure, it adopts a bent keel frame made of bamboo and steel pipes, and the frame size can be limitedly adjusted. It can be matched with different scenes, and the black yak hair fabric on the outside can well prevent the interference of surrounding light, allowing people to focus more on various activities.

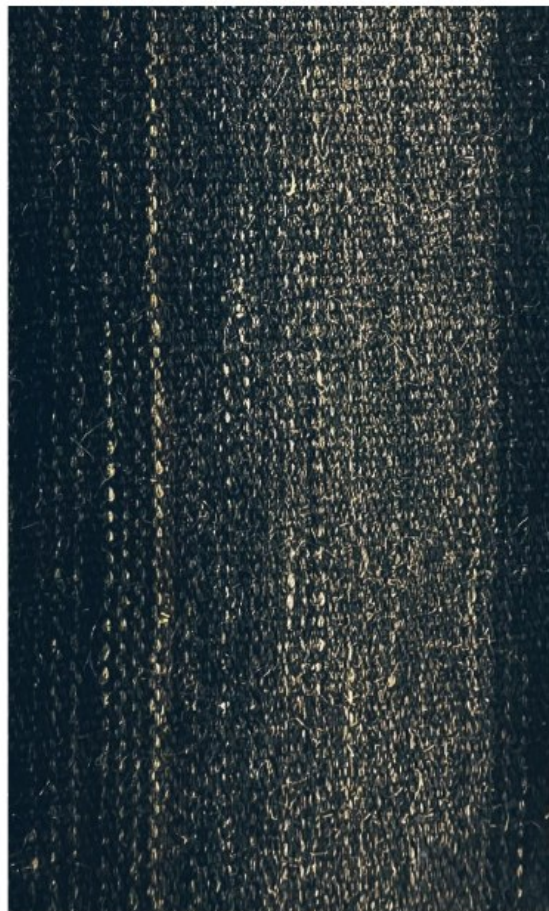

- Purely hand-woven, sewn with yak wool fabric
- Bamboo and steel pipe bent keel frame, limited adjustment of frame size
- With plastic transparent round observation hole
- Modular repair and stitching possible
- Scalloped appearance, streamlined shape design
- Adapt to various environments

## DETAILS

### Purely hand-woven, sewn with yak wool fabric

Yak wool fabrics are hand-woven by nomadic herdsmen in mountainous areas. Not only is the material naturally biodegradable, but it also represents the essence of nomadic culture and the unique charm of traditional techniques.

Nomad Tent

## DETAILS

### Bamboo and steel pipe bent keel frame

The bent keel frame made of bamboo and steel pipe can effectively adjust the size of the frame, can match different spaces, and also has high stability and durability.

## DETAILS

### Modular design

The monomers are modular and can be flexibly combined to adapt to different spatial scales and usage scenarios.

## DETAILS

### With plastic transparent round observation hole

There is a plastic transparent circular observation hole on the top of the black tent, which can effectively provide internal light transmittance.

## DETAILS

Scalloped appearance, streamlined appearance

The scalloped exterior design can provide greater internal space and better stability.
