

São Paulo

The efficacy and capacity of "minimalism"

Designer: Norbert Geelen

Kusch+Co

Sao paulo, imported from Kusch+Co in Germany

DESIGNER

DESIGNER

São Paulo, the capital of São Paulo State of Brazil, is the largest city in South America. Both primitive and modern, Passionate yet rational. It exuberates with the unique charms of metropolis. São Paulo office chair is named after São Paulo City. Just like this glamorous metropolis, São Paulo chair is just the same fascinating. Upon release, it has won FIRA Ergonomics Excellence Award.

DESIGNER

Application in various scenarios

High-end conference room or executive office,
The unique appearance design makes it applicable to various office styles.

Ergonomic design for comfort

It can be adjusted from various dimensions to achieve comfort. Encourage appropriate adjustment of sitting posture. Reduce office diseases. So that user can concentrate on work.

Graceful class-A surface

Class-A surface is often used in automotive design. Such aesthetic surface plays up the graceful atmosphere in office space.

Synchronized tilt

Multi-functional mechanism for synchronized tilt. Automatic regulation of bounciness by sensing weight when the user leans back.

3D

3D armrests

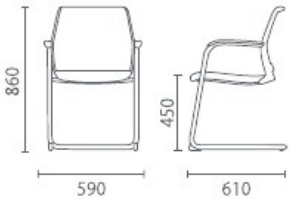

3D armrests are adjustable in 3 dimensions.
Armrest height, depth and angle are all adjustable.
PU pads, provided arm comfortable supporting.

"Invisible" Technology

Floating and seat above base,
The space below hides all the functional operators in the invisible chassis,
no lever or button is exposed.

Cantilever chair
