

Volpino

Designer: Norbert Geelen

Product: Kusch+Co

Original German design

Volpino, product of MATSU's partner Kusch+Co

"Volpino" means "baby fox" in Italian.

The designer integrates the "vivacity and flexibility" of fox into the design of Volpino. And creates a series of chairs to use in a variety of space for office, conference, collaboration and reception.

Shell imported from Germany

One-piece shell with flowing lines. Ergonomic design with multi-dimensional texture. Colorful, safe and flame-retardant. 97% of seat material is decomposable and recyclable.

Fire-proof performance complies with European standard DIN EN 1021 part1 and part2 and British standard BS 5852 crib5

"Volpino"

/volpino

DIN EN 1021 part1 part2

Recreate the safety and comfort of "cocoon"

When the user takes seat, it feels like being wrapped up into a cocoon. The shell of Volpino provides the same sense of safety and comfort.

Smile curve in the back

Conducive to the dissipation of heat generated during prolonged seating, and easy for cleaning, transportation and stacking.

One-piece armrest for comfortable support

One-piece PP shell with top and side bending outward, to support arms while maintaining visual lightness.

Various chair legs can be available

Wooden legs, metal legs, Steel Sled Base, 4-Star Base.

Non-slip glides

Plastic glides not only to prevent slipping but also to reduce floor abrasion.
